

What do we provide systems for?

Climate Control

Irrigation

Fertigation

Nutrient & Media Meters

Hydronic Heating

CO2 Systems

Misting/propagation

Ebb and Flow Plant Raising

Drainage Recycling

Water Treatment

High Pressure Fogging

Thermal Screens

Crop Trolleys

System Maintenance

Contact

Graeme White B.Hort Dip Hort

Brisbane

04500 49 607

Graeme has 25 years experience in the horticulture industry in Australasia. His roles involved commercial hydroponic vegetable & cut flower production, nursery production and garden retailing. Graeme holds a Bachelor of Horticulture and a Diploma in Horticulture from Massey University.

Bill Bright Dip Mech. Eng.

Melbourne

0414 922 627

Most Installation is carried out under the supervision of Bill Bright who has 15 years experience in developing and installing our systems.

Bill was originally a commercial Gerbera grower, with 6000m2 greenhouse, for many years and has a unique combination of electrical, hydraulic and plant husbandry experience. Bill holds a Diploma in Mechanical Engineering.

System Design

We have many years' experience in system design and specification compliance. We would be happy too provide Testimonials or contact details from clients we have serviced throughout Australasia.

Our 2 engineers are:

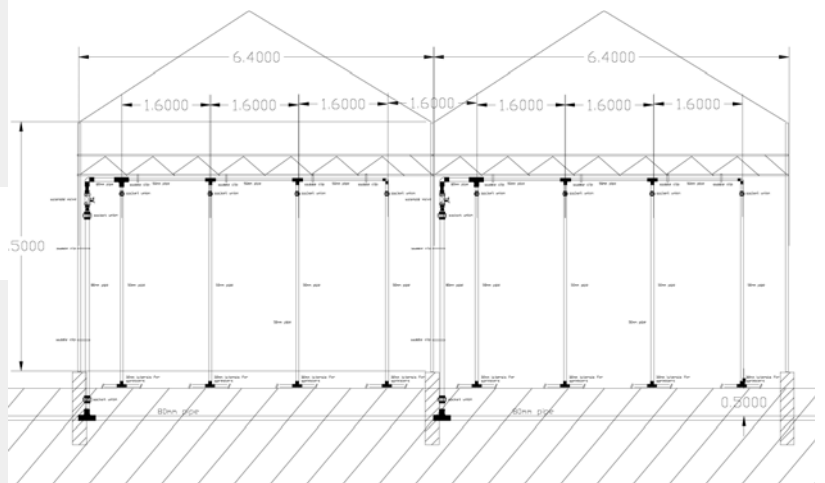

Bill Bright, Diploma Mechanical Engineering

Graeme White, Bachelor of Horticulture, Diploma Horticulture

For projects we apply industry standard engineering practice in:

- Pipe size and friction loss calculations
- Boiler sizing of main and submain pipes and nets
- Environment control systems device specification

Detailed calculations can be provided on request, once the project has developed with us, specifically towards finalization of contracts and agreement.

Specifically we can provide:

- 3rd Party sourced product details, warranty and performance characteristics
- Pipe sizing and calculations for selection of pipes and fittings
- Comprehensive parts lists
- Time allocations to project specific stages
- Credentials for installation personnel
